

# Come up with your own ideas

projects given below is just for your reference purpose

We don't want you to repeat the same old projects which are available in the market, get some new and unique Ideas, Our faculties are there to help you with all possibilities.

- Self Balancing Robot using Arduino
- smart home using arduino
- bluetooth controlled robot using arduino
- smart vehicular system using arduino
- iot controlled bot using arduino+iot
- smart home using arduino
- automatic railway gate control system using arduino
- line following bot using arduino(mini)
- Smart Dustbin With IOT Notifications
- Arduino Based System To Measure Solar Power
- Coin Based Water Dispenser System
- Fingerprint Vehicle Starter Project
- Fire & Gas Accident Avoider System
- Automated Car Parking With Empty Slot Detection
- Gsm Based Weather Reporting
- Smart Solar Grass Cutter With Lawn Coverage
- High Performance Hovercraft With Power Turning
- Alcohol Sensing Alert with Engine Locking Project
- Smart Wireless Battery Charging With Charge Monitor Project
- Hand Motion Controlled Robotic Arm Hand Motion Controlled Robotic Vehicle
- Gsm Based Weather Reporting
- Prepaid Energy Meter With Theft Detection IOT
- Garbage Monitoring System GSM
- Patient Health Monitoring
- IOT Electronic Door Opener
- Soldier Health & Position Tracking System IOT
- Liquid Level Monitoring System
- Anti Drowning System With Remote Alert Hovercraft Controlled By Android
- Fully Automated Solar Grass Cutter
- Traffic Density Control With Android
- Leakage Accident Prevention System
- Accident Identification and alerting project
- Fingerprint Authenticated Device Switcher
- Fingerprint Based Exam Hall Authentication
- Mobile Charging On Coin Insertion
- Rain Sensing Automatic Car Wiper
- Remote Stepper Motor Controller System RTC Based Pump
- Smart Room Temperature Controller

# Come up with your own ideas

projects given below is just for your reference purpose

- Automatic Unauthorized Parking Detector With SMS Notification To Owner
- Ultrasonic Blind Walking Stick
- Alcohol Sensing Display With Alarm Project
- CNG/LPG Gas Accident Prevention With Gsm Alert
- Prepaid Electricity Billing Meter
- IOT Weather Reporting System
- IOT Air & Sound Pollution Monitoring System
- Energy Meter Monitoring Over IOT
- IOT Based Person/Wheelchair Fall Detection
- IOT Patient Health Monitoring Project
- IOT Heart Attack Detection & Heart Rate Monitor
- IOT Industry Protection System Arduino
- Automatic Sketching Machine Project
- Womens Safety Device With GPS Tracking & Alerts
- Sun Tracking Solar Panel Using Arduino
- Arduino Based System To Measure Solar Power Rotating Solar Panel Using Arduino
- IOT Based Fire Department Alerting System
- IOT Solar Power Monitoring System
- Programmable Energy Meter With Bill Estimation
- Advanced Footstep Power Generation System
- Coin Based Water Dispenser System
- IOT Irrigation Monitoring & Controller System
- Joystick Controlled Steering Mechanism Vehicle
- Fire & Gas Accident Avoider System
- Solar UPS Project
- Street Light With Light Sensing
- Atmega Wireless Patient Health Monitoring
- Automated plant watering system
- WIFI FOR VEHICULAR COMMUNICATION SYSTEMS
- Mind controlled wheel chair using an eeg headset and arduino controller
- ultrasonic object detection robot
- traffic signals with synchronization system
- smart vehicular communication system
- android based smart bus tracking system
- anti theft protection of vehicle by gsm and gps with finger print verification
- automatic break control system
- automatic of water management and efficient distribution
- dam water level analysis (mini)
- developing fish feeder and aquarium maintaining system
