

Come up with your own ideas

projects given below is just for your reference purpose

We don't want you to repeat the same old projects which are available in the market, get some new and unique Ideas, Our faculties are there to help you with all possibilities.

- Raspberry Pi Air & Noise Pollution Monitoring System IOT
- IOT Colour Based Product Sorting Machine Project
- Speaking System For Mute People Using Hand Gestures
- IOT Colour Based Product Sorting Machine Project
- Object Tracker & Follower Robot Using Raspberry Pi
- Raspberry Pi Based Reader For Blind
- Raspberry Pi Wheelchair With Safety System
- Raspberry Pi Speaking Bus Stop Reminder
- IOT Based ICU Patient Monitoring System
- Drink & Drive Detection With Ignition Lock Project
- IOT Theft Detection Using Raspberry Pi
- Patrolling Robot With Sound Sensing
- Raspberry Pi Vehicle Number Plate Recognition
- Voice Controlled Home Automation Using Raspberry Pi
- Home Automation Project IOT
- Home Automation Using Raspberry Pi
- Camera Based Surveillance System Using Raspberry Pi
- Automated Door Opener With Lighting Control Using Raspberry Pi
- IOT Gas Pipe Leakage Detector
- IOT Industry Automation Using Raspberry Pi
- Image Processing Based Fire Detection Using Raspberry Pi
- WiFi for vehicular communication system
- WiFi operated robot
- lot based weather station using raspberry pi
- smart door using raspberry pi
- automatic human following trolley
- remote monitoring and controlling of industry using lot

Come up with your own ideas

projects given below is just for your reference purpose

- Women Safety Night Patrolling Robot Raspberry Pi
- IOT Flood Monitoring & Alerting System Using Ras Pi
- Gps based location tracer using raspberry pi
- Raspberry pi based fm transmitter
- monitoring and maintenance of highway bridges using wireless sensor networks
- automatic driver drowsiness alert system by using gsm and raspberry pi
- biometric system based electronic voting machine using raspberry pi
- smart home with biometric door lock
- street light intensity control system
- mind controlled wheel chair using an eeg headset and arduino controller
- smart drip irrigation system using raspberry pi
- raspberry pi based liquid flow monitoring and control
- raspberry pi as an wireless sensor network
- ultrasonic object detection robot
- traffic signals with synchronization system
- smart vehicular communication system
- android based smart bus tracking system
- anti theft protection of vehicle by gsm and gps with finger print verification
- automatic break control system
- automatic of water management and efficient distribution
- dam water level analysis (mini)
- developing fish feeder and aquarium maintaining system
